

## Publications Guidelines from USAID Washington

The guidance is the following:

\*If an organization wants to acknowledge NIL support, then, in the Acknowledgements Section of the publication, they can say something to the effect that support for this effort was provided by the Feed the Future Food Security Innovation Lab: Collaborative Research on Nutrition which is funded by the United States Agency for International Development.

Following this initial full-name reference to the NIL, if referred to again in the Acknowledgements Section, then you can refer to it as the USAID Nutrition Innovation Lab and, if there is a third reference, the Nutrition Innovation Lab (without USAID).

\*If the situation is that something is supported by both NIL and another organization(s), then you would say something to the effect that support for this effort was provided jointly by the United Nations Food and Agriculture Organization (for example) and the Feed the Future Food Security Innovation Lab: Collaborative Research on Nutrition which is funded by the United States Agency for International Development.
